| F – Educational plan of practice | | |

1. The course aims and objectives

Aim of the Course: developing the general professional competences necessary for working the procedural nurse.

Objectives:

- to administer of the medical documentation procedural nurse;
- to administer parenteral ways of introduction of drugs;
- to know principles care of patients and to know first pre-medical aid;
- to administer of medical devices for medical aid.

2. Place of the course in the curriculum

The program B2.P.4 Course of medical practice « "Procedural nurse assistant .Part I" » is made in accordance with the requirements of the federal state educational standard of higher professional education for specialty 31.05.01 "General Medicine" and refers to the unit of practice B2 « Practice, including scientific research work». Course of medical practice «Nurse assistant» is carried out in the 6st semester (course 3).

Practice to obtain professional skills and experience of professional activity “Training practice Care of the therapeutic and surgical patients. Part I”, Clinical practice “Training practice Care of the therapeutic and surgical patients. Part II”, “Junior staff assistant” «Ward nurse assistant» are the previous discipline necessary for studying of this course.

Course of medical practice «"Procedural nurse assistant .Part I" is basis for course of medical practice “Procedural nurse assistant. Part II”, Clinical practice «The assistant of the doctor of a hospital”, Practice to obtain professional skills and experience of professional activity (Assistant doctor of outpatient clinics).

3. Proposed results:

The course is aimed at the following competences:

| Competence index. Content of a competence (or a part of it) | The proposed results of the course students are: |
|--|--|
| GPC-6 The willingness for conducting the medical documentation | know: - Medical documentation procedural nurse (sheet prescribing, log-book of strong and narcotic drugs). able to: - carry out sample of prescribing of a list prescribing; - fill in book of carrying out injections and intravenous infusion of the drugs; - fill in the log-book of strong and narcotic drugs. own to: conduct of the medical documentation procedural nurse |
| GPC-8 The willingness for medical application of drugs and other substances and their combinations at the decision of professional | know: - methods of parenteral ways of introduction of drugs; - the technique of drawing drugs from ampules; |

THE LIST OF PRACTICAL SKILLS

| № | <i>Name of the skill</i> |
|-----|--|
| 1. | Administration of the medical documentation procedural nurse |
| 2. | Intradermal injection |
| 3. | Subcutaneous injection |
| 4. | Intramuscular injection |
| 5. | Sequence of the tourniquet before venipuncture |
| 6. | Intravenous injection |
| 7. | Intravenous infusion |
| 8. | Assessing arterial pulse of his performance |
| 9. | Measuring blood pressure |
| 10. | First aid for introduction of medicine not in right site (introduction of CaCl ₂ under skin) |
| 11. | First aid for urticaria, anaphylactic shock |
| 12. | First aid for post-injection abscess |
| 13. | First aid for bronchial asthma attack, pulmonary bleeding, hypertensive crisis, gastric bleeding, cardiac asthma, collapse, pains in the abdomen, heart attack |
| 14. | Administering artificial respiration |
| 15. | Chest compressions |
| 16. | Venipuncture for blood sampling for laboratory tests |
| 17. | Catheterizing the urinary bladder by the soft catheter |
| 18. | Collection of syringes, preparation (filling) of the system for intravenous infusion |

| | | |

| | |
|-----|--|
| 19. | Disinfection and utilization of syringes and needles |
| 20. | Disinfection and utilization of soft urinary catheters |
| 21. | Disinfection and preparation for sterilization of hard urinary catheters |

4. Place and date of the practice

Practical training is conducted in the 2nd semester at training center for medical technology of medical faculty and training rooms of the Institute of Medicine, Ecology and Physical Culture USU.

Date: 6nd semester of 3 course.

5. Content of Practice

| Total volume of practice | | Duration of practice |
|--------------------------|------------|----------------------|
| Credit units | Hours | Weeks |
| 3 | 108 | 2 |
| Contact work | 12/12* | |
| Self-work | 96 | |

* If it is necessary to use partially or exclusively remote educational technologies in the educational process, the table shows the number of hours of work of teaching staff with students for conducting classes in a remote format using e-learning.

6. The structure and Workload

| № п/п | Name of sections | The form of practice, including independent work | Quantity of Hours | The form of control |
|----------------------------------|---|--|-------------------|--|
| I. Preparatory stage of practice | | | | |
| 1 | Briefing on safety | Briefing on safety | 2 | Control of the filling of the diary |
| II. Production stage | | | | |
| 1 | Administration of the medical documentation | Medical documentation procedural nurse (sheet prescribing, log-book of strong and narcotic drugs). | 8 | Control of the filling of the diary, check-lists |
| 2 | Invasive parenteral ways of introduction of drugs | General rules for the use of medicines. Methods of administration of medicine. The collection of syringes, making medicines from vials, collection of IVS. | 12 | Control of the filling of the diary, check-lists |

10. Material support of discipline

Training center for medical technology of medical faculty and training rooms of the Institute of Medicine, Ecology and Physical Culture USU

1. Training center for medical technology of medical faculty - Ulyanovsk region, Ulyanovsk, ul. Architect Livchak, d. 2/1

Classroom № 11 – for lectures, seminars, group and individual consultations, ongoing monitoring and interim certification, independent work of residents (with a set of demonstration equipment to ensure the provision of illustrative material in accordance with the working program of the discipline, access to EBS).

The room is equipped with a set of student furniture for 6 seats.

Technical means:

1. Computer,
2. Internet access.

Laboratory equipment:

1. Full-grown robot-simulator of an adult patient,
2. Mechanical ventilator with CPAP option (in the absence of centralized supply of oxygen and compressed air, it is necessary to use a mobile air compressor or use a ventilator with a built-in air compressor),
3. Simulator auscultation of the heart and lungs,
4. Simulator of cardiopulmonary resuscitation,
5. The simulator of catheterization of peripheral veins,
6. Robot-patient simulator with monitoring system of basic vital signs
7. Tonometr,
8. Measuring tape,
9. Intravenous injection simulator
10. Urinary bladder cauterization simulator

2. Library - Ulyanovsk region, Ulyanovsk, ul. Embankment of the river sviyagi, d. 106 (building 2)

Library, reading room with area for independent work and access to ELS.

The room is equipped with specialized furniture for 40 seats, equipped with computer equipment on personal computers / workstations

11. Special conditions for students with disabilities

Students with disabilities and disabilities are trained together with other students (in the study group) or individually (on the personal application of the student).

The determination of places of practice for students with disabilities and disabilities is carried out taking into account the state of health and the requirements for their availability for this category of students. At determination of places and conditions (taking into account nosological group and group of disability of the trained) of practical training on obtaining professional skills and experience of professional activity of the trained for this category of persons individual features of the trained, and also the recommendations of medical and social examination reflected in the individual program of rehabilitation concerning the recommended conditions and types of work are considered.

| | | |
|--|------|---|
| Ministry of Science and High Education of RF Ulyanovsk State University Medical faculty of T.Z. Biktimirov, IMEiPC | Form |  |
| F – Educational plan of practice | | |

In determining the place of practice for students with disabilities and disabilities, special attention is paid to safety and equipment (equipment) of the workplace.

Workplaces for practice are provided by the profile organization in accordance with the following requirements:

- for students with disabilities and visually impaired - visually impaired: equipping a special workplace with General and local lighting, ensuring unhindered finding of the specified person of the workplace and the performance of individual tasks, the presence of video magnifiers, magnifying glass;

- for students with disabilities and the visually impaired - blind: vehicle specific workplace heat reference points and devices with the ability to use large boldly-contrasting font and Braille, acoustic navigation, which will enable easy finding a person in your workplace and individual assignments;

- for students with disabilities and hard of hearing – hard of hearing: equipment (equipment) of a special workplace sound amplifying equipment, telephones for the hard of hearing;

- for students with disabilities and hearing – deaf: equipping a special workplace visual indicators that convert sound signals into light, speech signals into a text running line, for the smooth finding of the specified person of his workplace and the performance of individual tasks;

- for students with disabilities and hearing impaired – with a violation of the musculoskeletal system: equipment that ensures the implementation of ergonomic principles (the most convenient for the disabled location of the elements that make up the workplace); mechanisms and devices that allow you to change the height and slope of the working surface, the position of the seat of the working chair in height and inclination, the angle of the back of the working chair; equipment with a special seat. compensating for the effort of getting up, special devices for the management and maintenance of this equipment.

Conditions of the organization and practice, preparation of reporting materials, carrying out of the current control and interim certification in practice is provided in accordance with the following requirements:

- Volume, rate, forms of performance of an individual task for the period of practice are established individually for each student of the specified categories. Depending on the nosology, contraindicated (visual, sound, muscle and other) loads are maximally reduced.

- Educational and teaching materials on practice are presented in various forms so that students with disabilities and disabilities with hearing impairments receive information visually (documentation on practice is printed in large print; video materials and visual materials on the content of the practice are provided), with visual impairment – auditory (for example, with the use of speech synthesizer programs) or with the help of tifloinformation devices.
