5. CONTENT OF DISCIPLINE (MODULE)

Subject 1. Bases of state regulation in the field of provision of medicines of the population

Maintenance of a subject:

State nature of the medicinal help to the population of the Russian Federation. Main directions of state policy on the medicinal help to the population. State policy of price control on drugs. Programs of improvement of provision of medicines on the basis of the list of the main medicines (the program of the state guarantees of the Russian Federation, the priority National project in the field of health care "Health"). The principles, the purpose and problems of Strategy of provision of medicines of the population of the Russian Federation until 2025.

Subject 2. Legislative bases of provision of medicines of the population

Maintenance of a subject:

The legislation ensuring safety and quality of medicines and regulating their implementation and use in the pharmaceutical market of Russia (FZ-61 "About drug circulation" of 12.04.2010).

The legislation regulating availability of medicines to certain groups of the population (FZ-178 "About the state social assistance" of 17.07.1999; FZ-323 "About bases of protection of public health in the Russian Federation" of 21.11.2011; Federal target program "Prevention and Fight against Socially Important Diseases"; FZ-157 "About immunoprevention of infectious diseases" 2015).

Subject 3. The system of provision of medicines of the population in the Russian Federation. Organization of work of pharmaceutical institutions

Maintenance of a subject:

Governing bodies of pharmaceutical activity. Federal level. Management of the organization of pharmaceutical activity, providing with drugs and medical products MZ Russian Federation. Regional level. Committee of pharmacy of Administration of the region. Regional (city) level. Rational use of medicines. Irrational use of medicines. The factors leading to irrational use of medicines.

Types of institutions of a pharmaceutical system. Classification of pharmacies. Basic principles of the organization of work of pharmacies. Self-supporting pharmacy, its tasks, functions, organizational structure. An obligatory assortment minimum of medicines and products of medical purpose which presence is necessary in all pharmacies. Small retail pharmacy chain: pharmaceutical points, booths, etc. Pharmaceutical Paragraphs 1 and 2 of category. Tasks of pharmaceutical points. Organization of pharmaceutical booths, their main objective.

Subject 4. A control system of quality of medicines in the Russian Federation

Maintenance of a subject:

State Register of Medicines. Preclinical tests of medicinal substances. Main objective of preclinical tests. Clinical trials the Order of preclinical tests, clinical approbation and implementation in practice of new medicines. Department of the State quality control, efficiency, safety of medicines MZ Russian Federation medical equipment. Scientific center of examination and state control of medicines of the Russian Ministry of Health. Pharmacological committee. Pharmacopoeian committee. Organization of quality control of medicines. Types of the state quality control of medicines.

Ministry of science and higher education of the Russian Federation Ulyanovsk state university	Form	
F-worker program of discipline		

Subject 5. The organization of provision of medicines when receiving medical care out-patient conditions

Maintenance of a subject :

Prescription of medicines at out-patient treatment. Coordination of prescription of medicines the patient, with the specialist doctor. Prescription of medicines according to the solution of DC. Organization of work of pharmacies for provision of medicines of out-patient and polyclinic patients. Providing the population with drugs at night through pharmacies on duty. Uniform information pharmaceutical system. System designation. Main functions. Organizational and technical means of a system. Program and information support of a system. Possibilities of a reference system. Principles of work of an information system. Prescription as medical, legal and financial document. Order of execution of prescriptions. General provisions

Subject 6. The organization of provision of medicines when receiving medical care in the conditions of the round-the-clock hospital

Maintenance of a subject:

Prescription of medicines by the patient at hospital treatment. Coordination of prescription of medicines with the manager of department, with the clinical pharmacologist, specialist doctor. Programs of the state guarantees of providing citizens of the Russian Federation with free medical care. Current and planned control of validity of pharmacotherapy. Intersick-lists and self-supporting hospital pharmacies. An order of invoicing, accounting and storage of medicines in a hospital. Accounting of medicines MO having pharmacy. Accounting of medicines in MO which do not have pharmacies. Licensing of the activity connected with trafficking in narcotics and psychotropic substances. Admission work with drugs and psychotropic substances. Providing inpatients with dressing materials. Storage of dressing rooms of means. Providing hospitals with alcohol.

Subject 7. An order of invoicing of prescriptions on medicines and execution of prescription forms

Maintenance of a subject:

Prescription as medical, legal and financial document. Characteristic of the prescription as document. Forms of prescription forms. Special pink form. Form No. 148-1/u-88. Form No. 107/at. Order of storage of prescription forms. Order of execution of prescriptions. General provisions. Features of an order of invoicing of prescriptions for acquisition of various groups of drugs. Periods of validity of prescriptions from the moment of their extract for various groups of drugs. Execution of prescriptions on alcohol. An order of execution of prescriptions for preferential dispense of drugs by the out-patient and polyclinic patient. Periods of storage of prescriptions in pharmaceutical institutions. List of the medicines which are subject quantitatively to accounting in the pharmaceutical (pharmaceutical) organizations, MO and private medical practitioners.

Subject 8. Pharmacoeconomic analysis

Maintenance of a subject:

Pharmacoeconomic analysis. Definition. Purpose of pharmacoeconomic researches. Role of pharmacoeconomic researches. Methodology of the pharmacoeconomic analysis. Methods of the pharmacoeconomic analysis: "cost minimization", "expense consequence", "expensive efficiency", "usefulness of expenses", "advantages of expenses". Criteria for evaluation of clinical performance and safety of medicine.

6. SUBJECTS OF THE PRACTICAL TRAINING

Ministry of science and higher education of the Russian Federation Ulyanovsk state university	Form	
F-worker program of discipline		

Subject 1: Bases of state regulation in the field of provision of medicines of the population
(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. State nature of the medicinal help to the population of the Russian Federation.
2. Policy of the state in the field of the medicinal help to the population .
3. State policy of price control on drugs.
4. Principles, the purpose and problems of Strategy of provision of medicines of the population of the Russian Federation until 2025.

Questions for independent study

1. Organization and ensuring medicinal help in the Russian Federation
2. Modern aspects of the organization of provision of medicines of childrenteenagers
3. Programs of improvement of provision of medicines on the basis of the list of the main medicines
4. Problems and the prospects of development of the pharmaceutical industry in the Russian Federation

Subject 2: Legislative bases of provision of medicines of the population
(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. Federal law No. 326-FZ "About compulsory health insurance in the Russian Federation" of November 29, 2010.
2. Federal law No. 323-FZ "About bases of protection of public health in the Russian Federation" of November 21, 2011.
3. Federal law "About Drug Circulation" of FZ-61 of 12.04.2010
4. Order MZ Russian Federation of 13.02.2013 No. 66 "About the adoption of Strategy of provision of medicines of the population of the Russian Federation until 2025 and plan of its implementation"

Questions for independent study

1. Regulatory framework in the field of the organization of provision of medicines of the population at the present stage
2. Federal law of the Russian Federation of 04.05.2011 No. 99-FZ "About Licensing of Separate Types of Activity"
3. Federal law of the Russian Federation of 08.01.1988 No. 3-FZ "About Drugs and Psychotropic Substances"

Subject 3: The system of provision of medicines of the population in the Russian Federation. Organization of work of pharmaceutical institutions

(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. Governing bodies of pharmaceutical activity. Federal level.
2. Regional level of management of pharmaceutical activity its main objectives.
3. Regional (city) level of management of pharmaceutical activity.
4. Rational use of medicines.
5. Irrational use of medicines.
6. The factors leading to irrational use of medicines.
7. Classification of pharmacies. Basic principles of the organization of work of pharmacies.
8. Self-supporting pharmacy, its tasks, functions, organizational structure
9. Pharmaceutical points, pharmaceutical booths.

Ministry of science and higher education of the Russian Federation Ulyanovsk state university	Form	
F-worker program of discipline		

Questions for independent study

1. Information technologies in the field of provision of medicines of the population
2. Information pharmaceutical system of Committee of pharmacy of the Ulyanovsk region

Subject 4: A control system of quality of medicines in the Russian Federation

(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. State Register of Medicines.
2. Preclinical tests of medicinal substances.
3. Clinical trials of medicines.
4. Order of preclinical tests, clinical approbation and implementation in practice of new medicines.
5. Organization of quality control of medicines.
6. Types of the state quality control of medicines.

Questions for independent study

1. A regulatory framework of a control system of quality of serially produced medicines
2. Role of Federal Accreditation Service in control of quality of medicines in the Russian Federation
3. Organization of quality control of medicines in Ulyanovsk and the Ulyanovsk region

Subject 5: The organization of provision of medicines when receiving medical care-out-patient conditions

(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. Order of prescription of medicines at out-patient treatment.
2. Prescription of medicines according to the solution of VK.
3. Organization of work of pharmacies for provision of medicines of out-patient and polyclinic patients.
4. Uniform information pharmaceutical system. Principles of its work
5. Order of execution of prescriptions for preferential dispense of drugs by the out-patient and polyclinic patient.

Questions for independent study

1. Basic principles of the organization of work of pharmacies
2. Pharmacies on duty and their role in providing the population with drugs at night

Subject 6: The organization of provision of medicines when receiving medical care-conditions round-the-clock hospital

(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. Prescription of medicines by the patient at hospital treatment.
2. Intersick-lists and self-supporting hospital pharmacies .
3. Order of invoicing, accounting and storage of medicines in a hospital.
4. Licensing of the activity connected with trafficking in narcotics and psychotropic substances.

Ministry of science and higher education of the Russian Federation Ulyanovsk state university	Form	
F-worker program of discipline		

5. Providing inpatients with dressing materials.
6. Providing hospitals with alcohol.

Questions for independent study

1. Programs of the state guarantees of providing citizens of the Russian Federation with free medical care .
2. Order of appointment and storage of narcotic and strong medicines in MO

Subject 7: An order of invoicing of prescriptions on medicines and execution of prescription forms

(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. Prescription as medical, legal and financial document.
2. Forms of prescription forms.
3. Order of storage of prescription forms .
4. Order of execution of prescriptions. General provisions.
5. Features of an order of invoicing of prescriptions for acquisition of various groups of drugs.
6. Periods of validity of prescriptions from the moment of their extract for various groups of drugs
7. Periods of validity of preferential prescriptions
8. Periods of storage of prescriptions in pharmaceutical institutions

Questions for independent study

1. List of the medicines which are subject subject quantitatively to accounting in the pharmaceutical (pharmaceutical) organizations, MO and private medical practitioners.
2. A group of citizens and categories of diseases at which medicines are provided for out-patient treatment free of charge or at a discount

Subject 8: Pharmacoeconomic analysis

(Carrying out form – practical occupation)

Questions for discussion on occupation:

1. Pharmacoeconomic analysis. Definition. Purpose of pharmacoeconomic researches.
2. Methodology of the pharmacoeconomic analysis .
3. Methods of the pharmacoeconomic analysis
4. Criteria for evaluation of clinical performance and safety of medicine.

Questions for independent study

1. Role of the pharmacoeconomic analysis in a modern health care system
2. Economic aspects of rendering medicinal help to the population

7. LABORATORY WORKS, WORKSHOPS

This type of work is not provided GEP

8. SUBJECT OF REPORTS

1. Organization and ensuring medicinal help in the Russian Federation
2. Modern aspects of the organization of a medicinal help of children and teenagers
